

# Space and Movement

June 12<sup>th</sup> – 30<sup>th</sup> August 2012

Galerie Ficher Rohr

The Gallery Ficher Rohr is pleased to present this exhibition by Frank Stella!  
The initial impression of Stella's recent paintings, sculptures, and architectural projects is overwhelming, and far exceeds the effect of anything he produced in the past. With the bravado of urban graffiti, these modern icons deliver a visual impact that seduces viewers into surrendering completely to their magnetic power... It is easy to get lost in the shapes that subdivide the surface of Stella's paintings, sculptures and buildings, and to roam their real and illusionary spaces... Out of this chaos, Stella imposes an order that transforms the viewing of these works into as real an experience as one could have before a painting, sculpture or building. [Bonnie Clearwater in *Frank Stella at Two Thousand, Changing The Rules*, 1999]

"If you follow the edges of the lines, there's a sense of movement, and when they move well and the color follows, they become colourful, it builds up and it moves..." *Frank Stella*
